I NOMENCLATURE

Product Name: Stop Blossom End Rot of Tomatoes

Chemical Name: Calcium Chloride (CaCl₂ · 2 H₂O) in water solution

II INGREDIENTS

| | | | |
|----------------------------------|-----------------------|-----|--------------------------------|
| Calcium Chloride | CAS # 10043-52-4 | 31% | ACIGH TLV not established |
| | | | OSHA 29 CFR table Z not listed |
| Hazard Rating: Health (1) Slight | Flammability (O) None | | Reactivity (I) slight |

III PHYSICAL PROPERTIES

| | |
|--|--|
| Boiling Point : >212 ⁰ F | Specific gravity: (H ₂ O=1) 1.28 |
| Vapor pressure (water) 760 @ 100 ⁰ C | Volatile by volume as water 60% |
| Solubility in water: Soluble | Reactivity in water: negligible, slightly alkaline |
| Appearance /Odor: light blue-green liquid practically odorless | |
| Material crystallizes at approximately -40 ⁰ F | |

IV FIRE & EXPLOSION DATA

| | | |
|----------------------------|-------------------------|---------------------------|
| Flash Point: Not flammable | Auto ignition Temp N.A. | Flammable Limits Lower-NA |
| | | Flammable Limits Upper-NA |

Unusual Fire an explosion Hazard: Keep containers cool to avoid pressurization.

Extinguishing media: Use media appropriate for surrounding fire.

Toxic gas; Hydrogen Chloride produced

Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece operated in positive pressure mode.

V FIRST AID

EYE EXPOSURE: Flush eyes with gentle stream of clean water for 15 minutes, lifting upper and lower lids occasionally while flushing. Get medical attention if irritation occurs.

SKIN EXPOSURE: Remove contaminated clothing and wash all exposed skin surfaces thoroughly with soap and water. If irritation develops, see a physician.

INGESTION: If person is conscious give large amount of water. Induce vomiting, if medical attention is not immediately available. Get medical attention. Do not give anything by mouth to an unconscious or convulsing person.

INHALATION: Remove to fresh air. If effects occur, consult physician immediately.

SYMPTOMS of OVEREXPOSURE: May irritate eyes, nose, throat and skin.

VI HEALTH HAZARD DATA

INHALATION: Spray mist may irritate nose, throat, and lungs. When used in combination with pesticides, follow all

label precautions for pesticides used.

Ingestion: LD₅₀ (Rat): 1000 Mg/Kg (anhydrous calcium chloride).

SKIN: May cause skin irritation. Under prolonged contact superficial burns may result. Contact with abraded skin or cuts can cause necrosis.

EYES: May irritate or burn eyes.

VII REACTIVITY

Stable under normal storage conditions.

Materials to avoid: Most common metals. Will slowly corrode brass and aluminum. Wash metal sprayer parts after use. Sulfuric acid will react to produce hydrogen chloride. Methyl vinyl ether will cause a runaway polymerization. Zinc (as with galvanized iron) will yield hydrogen gas which can be explosive.

Conditions to avoid: None. Hazardous decomposition products: Hydrogen chloride

Hazardous polymerization will not occur.

VIII SPILL OR LEAK

Contain and absorb. RCRA , Not a listed hazardous waste. Material that can not be used as directed by label should be discarded according to local, state, and Federal regulations.

Hazardous substance (EPA clean water act section 311) not listed.

IX SPECIAL PROTECTION

If inhalation of mist is unavoidable, wear a NIOSH approved respirator for mists.

Ventilation; Good ventilation. Mechanical not generally necessary.

To avoid skin contact , wear long sleeved shirt, long pants, impervious gloves and boots.

Solution is damaging to leather.

Safety glasses with side shields or goggles. Do not wear contact lenses while handling.

X STORAGE

Store in cool , dry, ventilated area. Do not put leaking or damaged containers into storage.

KEEP OUT OF REACH OF CHILDREN

XI TRANSPORTATION

DOT: Not Regulated

Freight class : Manufactured Fertilizer NOI liquid NMFC 68140 sub 6
